

VERSIONE INGLESE

DONATIONS FOR THE BUILDING OF DIOL KADD'S OUTPATIENTS DEPARTMENT

Hello!

Our names are Eleanor and Jon and we are about to set off on a year-long journey that will combine our passion for visiting different countries and experiencing different cultures with our aim to support those who need it in any way we can. During the course of our travels we intend to undertake a variety of volunteering projects with different charities as well as taking some time to visit nearby countries.

But let's get to the point! Our first project will take place during the Spring of 2010 in England , our home country, where we have decided to challenge ourselves to walk the Pennine Way , Britain 's first National Trail, that starts in the Peak District in Derbyshire and ends in the Scottish Borders.

We are hoping to complete the 270 mile walk in approximately two weeks.

But here is the ultimate purpose of our challenge; we are hoping that our walk will help us to raise awareness of the Takku Ligey charity through the use of e-mails to our friends and family and leaflets to distribute during our walk. In particular we hope to inspire people to donate a small amount of money to the charity who is currently undertaking a project finalised to building a health centre in the village of Diol Kadd in Senegal . We are hoping to reach a target of €1000.

We would therefore be extremely grateful if at some point during the next few months you could provide us with some moral support in the form of a donation to Takku Ligey which will help us to carry on walking and keep smiling at every deluge, wrong turn and attack from enraged farm animals!

To make a donation to Takku Ligey please visit the website www.diolkadd.org and click on the appropriate link.

Many thanks!
